

No. of Functional Features Included in the Solution

Date	1 October 2026
Team ID	62ab296c9dbd693aad
Project Name	Farm Management System
Maximum Marks	5 Marks

Functional Features Overview:

This document lists the functional features included in the Farm Management System. Each feature is described with its purpose, implementation status, module/component and contribution to the overall solution.

S.No	Feature Name	Feature Description	Module / Component	Status (Done / In Progress / Pending)	Marks Contribution
1	Dashboard	Provides a quick overview of farm records and important information.	Dashboard / UI	Done	High
2	Field Management	Add, view, update and delete field details such as area and status.	Field Module	Done	High
3	Crop Management	Maintain crop details including crop name, planting information and field association.	Crop Module	Done	High
4	Farm Activity Management	Record activities such as sowing, irrigation, fertilization and pest control.	Activity Module	Done	High
5	Worker Management	Maintain worker details and assign workers to farm activities.	Worker Module	Done	Medium
6	Resource Management	Record and manage seeds, fertilizer, pesticides and other farm resources.	Resource Module	Done	High
7	Expense Management	Record farm-related expenses and amounts for organized financial tracking.	Expense Module	Done	High
8	Harvest Management	Record harvested crop details, quantity, date and related field/crop.	Harvest Module	Done	High

Feature Summary:

Metric	Count / Value
Total Features Planned	8
Total Features Implemented	8
Core / Must-Have Features	6
Additional / Nice-to-Have Features	2
Features Tested & Verified	8

Feature Category Breakdown:

S.No	Category	Features in Category	Example Features
1	User Interface (UI)	2	Dashboard; responsive forms and record display
2	Backend / Logic	4	Field, Crop, Activity and Worker management; CRUD logic
3	Database / Storage	2	Resource, Expense and Harvest records; farm data storage
4	API / Integration	0	No external API integration included in the core version
5	Security / Authentication	0	Authentication and role-based access are planned as future enhancements
